

Responding to Peak Weather Events

NWGA Panel Discussion
Sunriver, OR
June 13, 2024

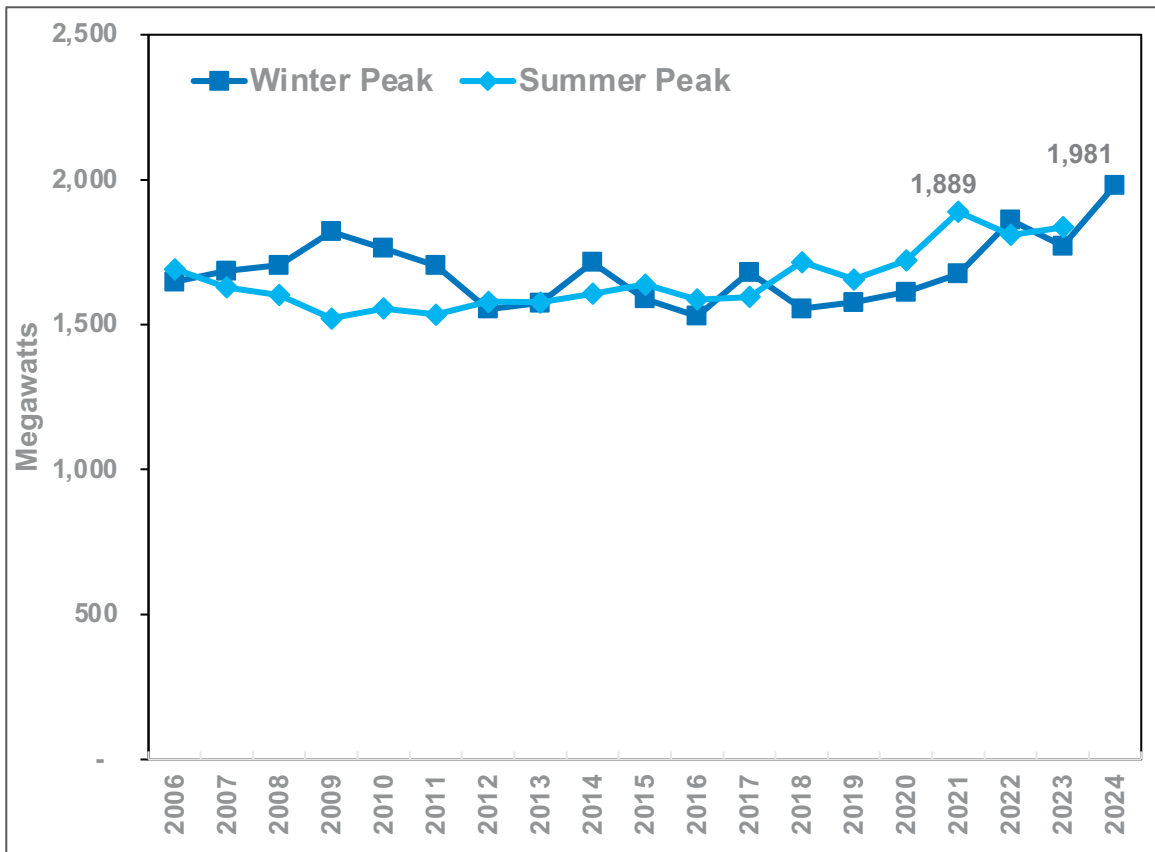

Kevin Holland – Director of Energy Supply

GTN & Jackson Prairie – Gas Supply Events

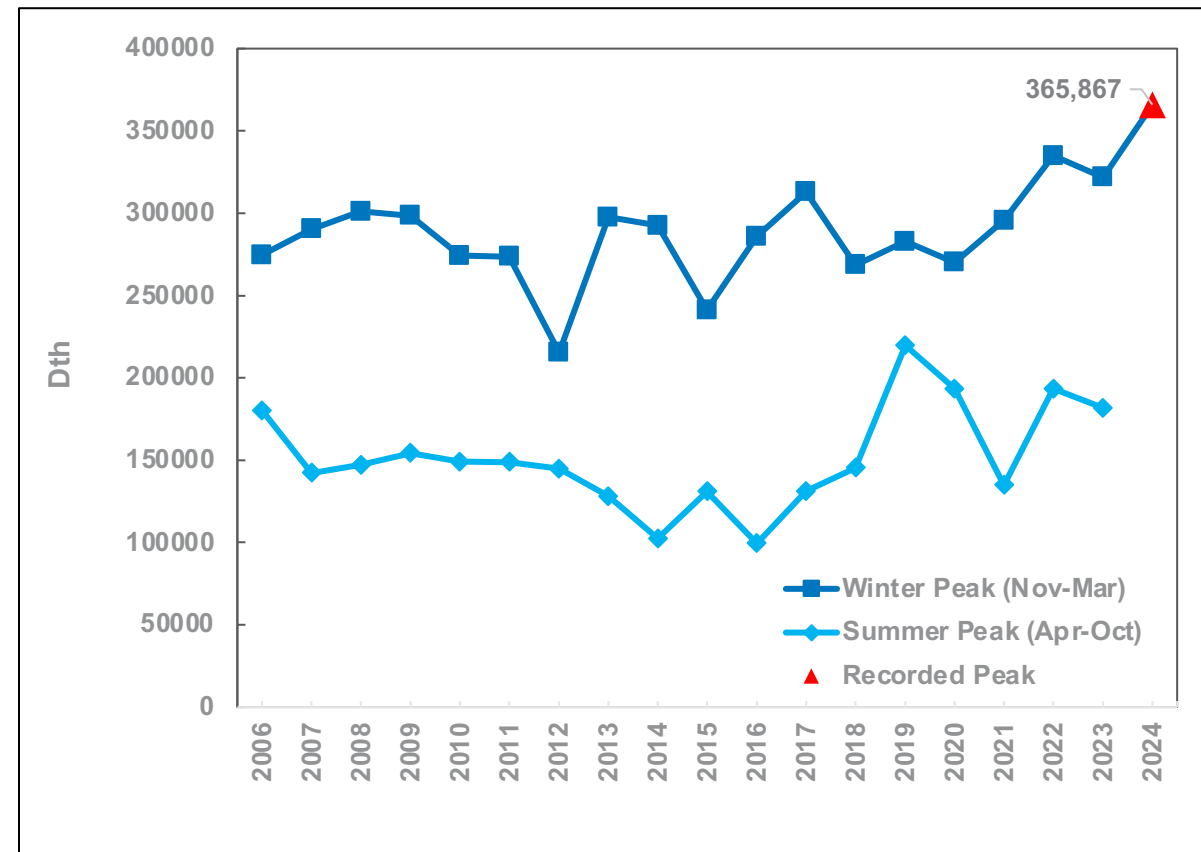

Historical Electric and Gas Peak Loads

Electric Peak Load

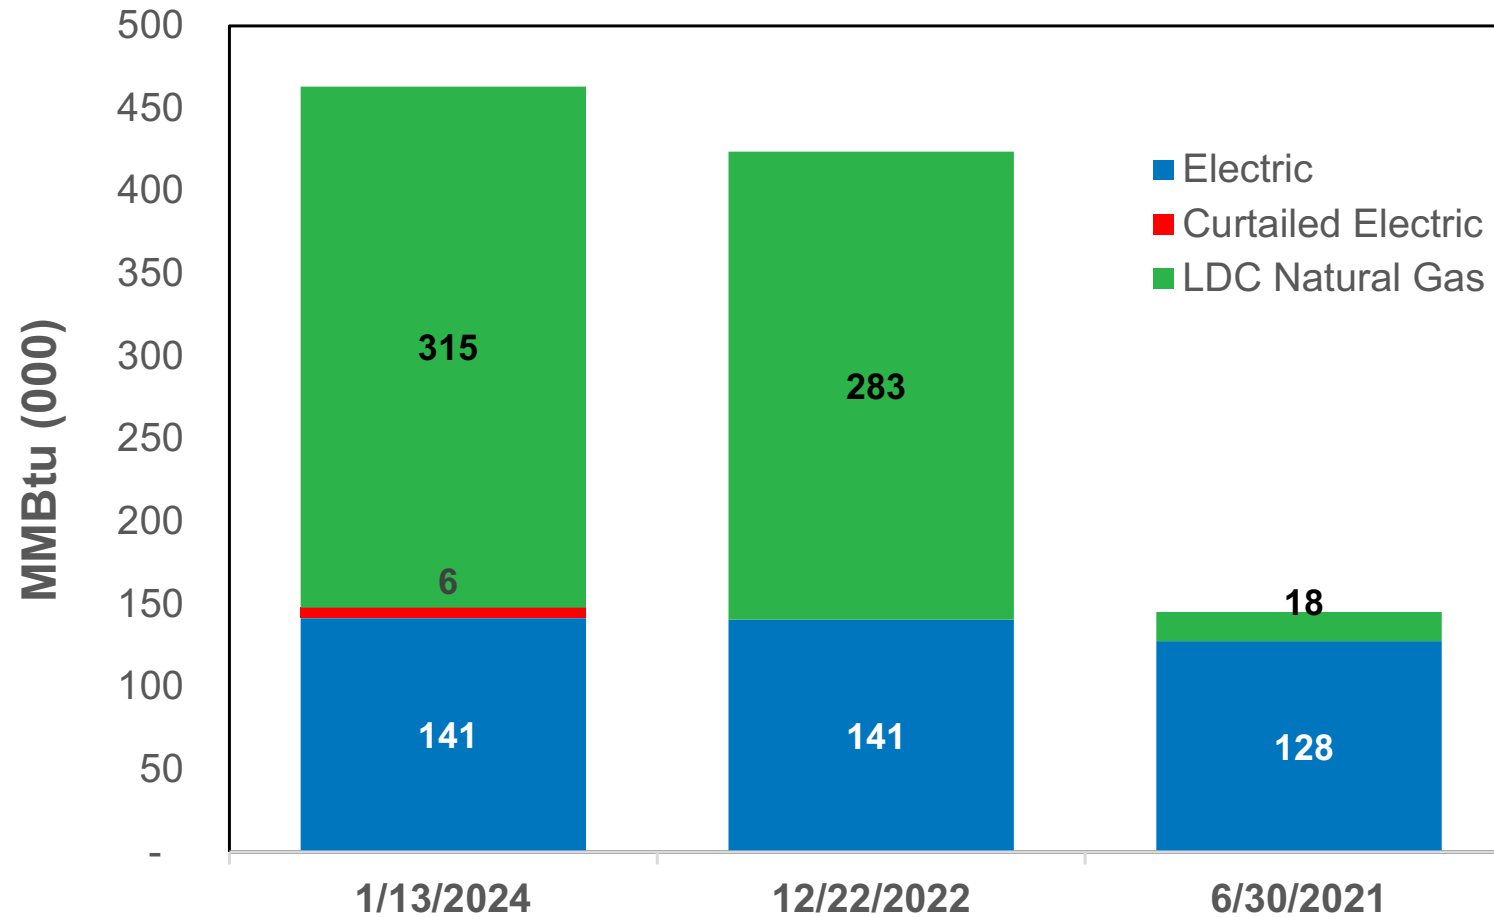

Natural Gas Peak Load

Avista's WA/ID Gas & Electric Demand

Total MMBTU of Daily Demand

Daily electric MWh multiplied by 3.412

Lessons Learned

- Customers responded to conservation requests
- Value of diverse energy supply
- Changes to Integrated Resource Planning models and assumptions
- Evaluate back up fuel supply
- Regional need for wires, pipes, and long duration storage
- Improve gas and electric coordination
- Value of coordinated regional programs and markets
